

College Information & Student Management Web Application

Presented By: Vanshika
Course: BCA | Semester: 3rd
College: Hindu College, Amritsar

Internship Project | 2026

What problem does the Student Portal solve?

- College information is often scattered across different sources.
- Students may need marks, attendance, timetable and notices frequently.
- Searching separately for each item takes extra time.
- Important notices can easily be missed.
- The portal brings essential student information together in one place.

CENTRALIZED ACCESS

Students log in using their college credentials and reach a personalized dashboard.

STUDENT-SPECIFIC DATA

The portal displays academic schedule, communication, fees and profile information.

MAIN MODULES

House Test Marks • Attendance • Date Sheet • Timetable • Notices • Messages • Fees • Mentor Details • Personal Details

PROGRAMMING

JavaScript / TypeScript

INTERFACE

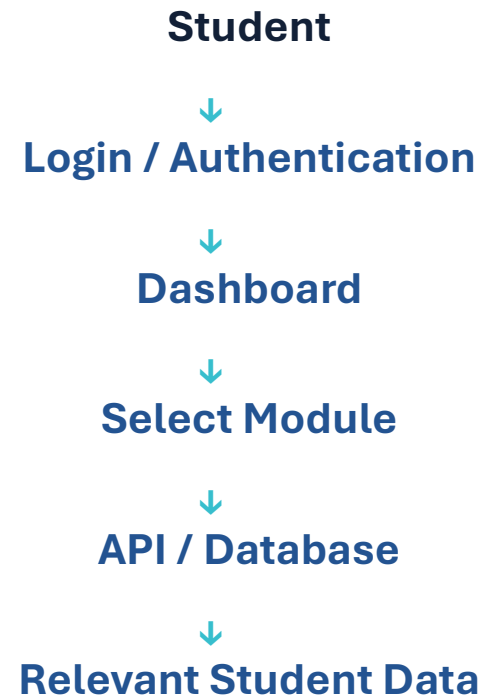

React.js • HTML • CSS

DATA

Firebase / JSON / REST API

DEVELOPMENT

VS Code • GitHub

AI is not a core component of the current Student Portal. The system focuses on authentication, data retrieval and student information display.

1–2 genuine challenges faced during development

- Designing a clean dashboard with many modules.
- Connecting authentication with student-specific information.
- Handling incorrect credentials and missing data.
- Testing each module for accurate information display.

MY CONTRIBUTION

- UI / dashboard design
- Data handling
- Documentation / presentation

Possible extensions of the portal

- Dedicated mobile application
- Push notifications for important updates
- Assignment submission and tracking
- Parent login
- Mentor–student communication
- Personalized academic insights

X

The Student Portal provides a single platform for important college information.

It makes access to marks, attendance, timetable, notices, fees and personal details easier.

The project reduces the time needed to search across different sources and provides a simple, organized and user-friendly student experience.

THANK YOU

Student Portal
